Dear Parent/Guardian:

The online safety education course is an elective opportunity for students. Successful completion of the online course is a prerequisite for the behind-the-wheel driving option. The course is offered through Virtual Drive Education. Registration and fee (\$44) are handled by Virtual Drive Education. The course is approximately 30 hours in length and students work on it at their own pace. Students have one calendar year from the date of enrollment to complete the course. To enroll, you must register using the link below and pay the \$44 course fee. This course is no longer facilitated by York Suburban High School.

The course is facilitated entirely through Virtual Drive Education. Students will register for the course online and then will be given a username and password. If a student would like to sign-up for the behind-the-wheel driving program offered at York Suburban High School after successful completion of the online course, he/she should print his/her successful completion certificate and give a copy to the main office. The office will have behind-the-wheel driving information for the students.

If a student has any online course issues, please contact Mr. Philip Knapp at phil@nerdsandwichproductions.com or 806-236-5534.

New User Registration Link:
